Guided Reading Plus Intervention - Level 1

Guided Reading Plus is a small group literacy intervention for students who are not reading at grade level. Typical students in this intervention would range from grades 1-3 or be working in text reading levels C-M. **Note that this intervention has been updated to include a Preparing Phase.** The Preparing Phase builds the student's background knowledge in order to help the student access higher-level reading materials. The original training videos do not include this update. Attend this two-day training to learn how to implement the most current design.

Bring required texts: *Interventions That Work* by Dorn & Soffos, 2012 & *Apprenticeship in Literacy* by Dorn and Jones, 2012.

Registration Details
