Interactive Writing Intervention - Level 2

The goal of the Level 2 Interactive Writing Intervention training is to help educators understand how to tailor support for students struggling with early literacy skills necessary for reading beyond Level A/B texts. Level 2 training presumes that teachers are familiar with and have used the Interactive Writing Intervention. Responsive lesson design, tied to ongoing assessment and literacy processing theory will be the focus of this training. Reciprocity between reading and writing for emergent readers will be an additional lens through which we'll study.

Bring required text: *Interventions That Work* by Dorn & Soffos, 2012.
